Dear Mr. Ruddell,

It is my understanding that Rule 25 - of the CUTE 1 Collective Agreement has been discussed insofar as the extension of switching limits on the Prince George Subdivision from Mileage 473.7 to Mileage 474.0 on the north. This extension was agreed to in light of changed industrial activities.

In return for your concurrence to extend the limits as stated above, outstanding claims already received by BC Rail prior to February 22, 1995 will be paid the difference between road and yard rates for the hours worked.

Please indicate your concurrence with the above changes by signing in the space provided for below.

Yours truly,

J.C. Trainor
Vice President, Operations
